

# GOVERNMENT COLLEGE OF ENGINEERING AND CERAMIC TECHNOLOGY

*Established 1941*

Accredited by NAAC with Grade A

(2015)

**1.4.1: Structured feedback for curriculum and its transaction is regularly obtained from stakeholders like Students, Teachers, Employers, Alumni, Academic peers etc., and Feedback processes of the institution**

- A) Resolution of Governing body meeting**
- B) Action taken report on feedback analysis**

*73, Abinash Chandra Banerjee Lane*

*Kolkata-700010*

*West Bengal, India*

*E-mail: [gcctwb@gmail.com](mailto:gcctwb@gmail.com)*

The resolution of the Governing Body Meeting held on 30<sup>th</sup> June, 2022 on the feedback system of the Institute.

Agenda –

Miscellaneous – 2

Consideration of feedback report.

Resolution –

Structured feedback for design and review of syllabus from students, teachers, employees and alumni was placed in the meeting. Members appreciated the feedback collection method, questionnaire and analysis. The action take report of Computer Science & Engineering Department, IT Department and CT department also placed. Members advised to complete all action at the earliest.

## **Stakeholders Feedback on Academic Curriculum and Design of Syllabus**

The Institute has a well-established feedback system that aims to improve the teaching-learning process and provide continuous support to students for their all-round development. A mechanism is in place for obtaining feedback for reviewing the curriculum/syllabus for the preceding academic year from various stakeholders.

Structured feedback has been designed for

- 1) Students
- 2) Teachers
- 3) Employers
- 4) Alumni
- 5) Guardians

### **Data Collection Instrument**

Student: Google Feedback Form for graduate survey, Departmental feedback collected by HOD

Teachers Feedback Form: Collected at institutional level

Alumni: Feedback Form collected through respective HOD

Employers: Feedback Form collected through placement cell

Guardians: Google Feedback Form

**Student feedback analysis and Action Taken Report on the survey conducted in the year 2017-2018 on curriculum and design of the syllabus:**

Sl no	Feedback Analysis	Action Taken
1.	Most of the students(80.6% students are with highest satisfaction) are satisfied with the coverage of the syllabus in the class	Students will be counseled to attend classes regularly to keep track of progress of the course.
2.	Most of the students(98.8%) expressed that teachers were well prepared in the class	Students will be counseled to attend classes regularly so that they can understand the discussion in the class properly
3.	Most of the students(80.6%) expressed that the teacher can communicate effectively.	Students will be counseled to attend classes regularly so that they can understand the discussion in the class properly and can communicate their problems with subject teachers.
4.	Most of the students expressed that the teaching was excellent, very good and good.	The mentors will be advised to interact with their mentee to sort out the problem of understanding in the class.
5.	Most of the student are satisfied with the internal evaluation process	There is a proposal to allow students to view the evaluated answer script. for maximum transparency.
6.	Most of the students are satisfied with the internship facility of the institute in a regular or proper manner.	Summer internship is compulsory for all students. They are encouraged to take the internship according to their subject preferences.

K. Chakrabarti

Principal  
Govt. College of Engineering  
& Ceramic Technology  
Govt. of West Bengal

7.	Most of the students are satisfied with the mentoring systems	Mentors in each semester are advised to help students in choosing their elective papers from MOOCs basket and choice based credit system.
8.	Most students agree with the fact that institute provide multiple opportunities for learning process	HODs and other faculty members are advised to encourage the students to avail maximum benefits like participating into other courses offered by the institution (Wipro Talent Next, TCS TAAP) and other certification.
9.	Most students agree with the fact that they are well aware of CO, ILO and PO through the faculty of the course. It is well communicated through the syllabus.	Faculty members are advised to address at the time of deliberation of lectures. They should also mention CO in the question paper and assignment.
10.	80% of the students agree with the fact that the syllabus provides the scope of facing the right amount of challenges in the courses.	Departments are advised to include more new courses in the syllabus.
11.	Only 48 % students are strongly satisfied with the courses which are addressing soft skills, life skills and employability skill.	Departments are advised for revision of syllabus to incorporate the matter
12.	Percentage of faculty members using ITC tool is about 60%	Faculty members should use more ITC tool for more student centric learning

K. Chakrabarti

Principal  
Govt. College of Engineering  
& Ceramic Technology  
Govt. of West Bengal

**Faculty feedback analysis and Action Taken Report on the survey conducted in the year 2017-2018 on curriculum and design of the syllabus:**

1.	Most of the faculty are aware of vision and mission of the institute and respective department	In departmental meetings, it is discussed and redefined to address the proposed revised curriculum.
2.	Most of the faculty members are agree with that they are aware of the pre-requisite and objective of the courses well defined	Those who are not aware of it advised to go through
3.	50% of faculty members use ICT tools for most of their classes and find there is sufficient facility.	All faculty members are encouraged to use smart classroom and ICT tools
4.	50 % of the faculty members agree with the fact that there is a requirement of revision in syllabus	All departments are advised to revise their syllabus
5.	33% of the faculty members suggest more elective papers in the syllabus	All departments are advised to revise their syllabus

K. Chakrabarti

Principal  
Govt. College of Engineering

Govt. of West Bengal

**Alumni feedback analysis and Action Taken Report on the survey conducted in the year 2017-2018 on curriculum and design of the syllabus:**

1.	Most of the alumni feel courses are which are skills oriented but according to 50% of them it can be make better	Syllabus should be modified according to the best skill set
2.	Some of the alumni suggested more elective papers	Departments are advised to incorporates more electives
3.	Alumni are very satisfied with project guidance and learning resources	It is advised to maintain the quality of project work.
4.	Most of the alumni agree with the fact that the content learnt in relation to their current job is very satisfactory.	With advancement of recent technologies, it is suggested to incorporate new courses to make the students industry ready.
