3.6.2.1: Detailed report for each extension and outreach program to be made available, with specific mention of number of students participated and the details of the collaborating agency

Reports on the extension activities:

The following report presents details of various activities conducted at GCECT during the years 2017 to 2022. These activities were aimed at creating awareness and imparting knowledge to the students. The report includes the name of the activity, name of the scheme, dates, number of students participated, and number of teachers coordinated the programs.

2021-2022:

International women's day celebration

The NSS Unit of GCECT organized an event to celebrate International Women's Day on 8th March 2022. The event aimed to raise awareness about the importance of gender equality and empower women. A total of 20 students participated in this event.

The event started with a speech by the chief guest, who talked about the importance of women's rights and their contribution to society. This was followed by a cultural program where students performed various dance forms, songs, and skits related to women empowerment. The event concluded with a pledge taken by all participants to promote gender equality and support women in all spheres of life.

The event was successful in achieving its objectives and received positive feedback from the participants. The students were inspired to become agents of change and work towards creating a more equitable society.

Sky watching camp

The Science Club of GCECT organized a Sky Watching Camp on 9th April 2022. The event aimed to promote science awareness among students and provide them with an opportunity to observe celestial objects through telescopes. A total of 100 students participated in this event.

The event started with a brief introduction to astronomy and the night sky. This was followed by a demonstration of telescopes and their usage. The students were then divided into groups and given the opportunity to observe various celestial objects such as stars, planets, and galaxies.

The event was successful in generating interest among students in the field of astronomy and science. The participants were amazed by the beauty of the night sky and appreciated the opportunity to observe celestial objects through telescopes.

Rally on environmental awareness

The NSS Unit of GCECT organized a rally on 26th April 2022 to raise awareness about environmental issues. The event aimed to promote sustainable practices and encourage students to take action towards protecting the environment. A total of 30 students participated in this event.

The rally started from the college campus and covered various areas in the nearby locality. The participants carried placards and banners with messages related to environmental protection and sustainability. The rally concluded with a speech by the chief guest who emphasized the need for collective action towards preserving the environment.

The event was successful in raising awareness about environmental issues among students and the local community. The participants were motivated to take action towards protecting the environment and promoting sustainable practices.

Movie show on gender equity:

The movie 'Bombshell' was shown on 12.05.2022 to the students. 'Bombshell' is a very educational movie based on gender equality, with many positive messages. Total 45 students were present in the movie show. This show left a deep impact among the students.

World environment day celebration

The NSS Unit of GCECT organized an event to celebrate World Environment Day on 5th June 2022. The event aimed to promote environmental awareness and encourage students to take action towards protecting the environment. A total of 10 students participated in this event.

The event started with a tree plantation drive where the students planted saplings in the college campus. This was followed by a talk on environmental issues and their impact on society. The event concluded with a pledge taken by all participants to promote environmental protection and sustainability.

The event was successful in generating awareness among students about environmental issues and their impact on society. The tree plantation drive was appreciated by all participants, and they were motivated to take further action towards protecting the environment.
